

Professional Documentation with easy-link

ISO 9000 requires documentation of measurement results. The easy-link software features:

- Easy and direct data transfer from the instrument to Excel®
- QC templates prepared in Excel® allow you to create professional QC reports
- All data are summarized in one easy to read report: Gloss, thickness, color and your own product specific information
- Expandable: modifications can be made easily when new requirements are established

- Control your production with color, gloss, and thickness in one QC-report

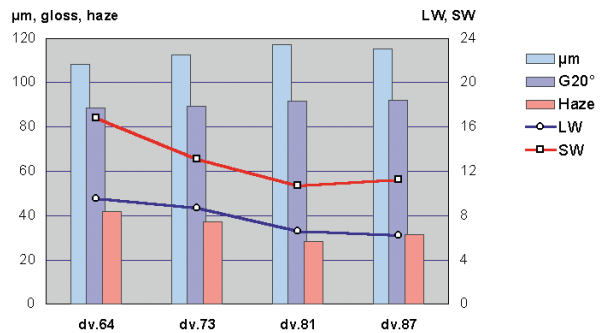

Color data can also be transferred to easy-link with spectro-guide, see page 69.

Application Report

Customer: ABC-Coat, Tech. Serv. Department: Laboratory
 Sample: Clear Coat System Operator: Smith

Description: **Influence of application parameters**

Sample-Id.	Modification	μ	G20°	Haze	LW	SW
WA-14	dv.64	108.3	88.5	41.7	9.5	16.8
WA-16	dv.73	112.6	89.3	37.1	8.7	13.1
WB-14	dv.81	117.3	91.6	28.4	6.6	10.7
WB-15	dv.87	115.2	92.1	31.3	6.2	11.2

- You can easily create professional reports according to your specific needs
